

## Improve your bottom line with Virtual Pay from Elan Financial Services

By replacing checks and paper-based processes with virtual accounts, Virtual Pay streamlines payments to provide cost-saving solutions.

- Automate payment and simplify reconciliation
- Reduce processing and operating costs
- Increase control and security
- Gain superior spend visibility and reporting
- Enhance cash management – including revenue-share opportunity

### **A real-time, 24/7 web-based payment solution**

At no cost to you, Virtual Pay provides tools, resources, flexibility and a dedicated Supplier Enrollment team to help you reduce payment costs, increase efficiencies and even generate rebate revenue. Not only does this decrease your overhead and staff time, automated reporting provides comprehensive tracking and monitoring of your payments.

### **Enhance payment security and control**

Virtual Pay cardless account numbers can be set to a specific supplier, date range and payment amount. Payments are processed only after you approve them, so you have complete control over your accounts payable process.

### **Rely on our dedicated Supplier Enrollment team**

Our experts will customize solutions to meet your goals, enroll suppliers, provide ongoing support and help you maximize the value of your program.

## Redefining payments for today's business
